Office Action Summary

Art Unit: 3634

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Inglis or Ondrasik.

Claims 2-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 8-10 are allowed.

The patents to Wang, Walsh et al, Deaver, Cothran et al, Freeland, Maslow, Quisenberry, Huempfer et al, and Luukkonen are cited to show similar structures.

Any inquiry concerning this communication should be directed to Examiner R. Gibson at telephone number (703) 308-2168.
